Template

Few points to remember

Intro part is all about showing your professionalism, your interest in learning & growing and direct the interviewer towards something that is your strong point. Don't mention about any of your weak points in the intro part like "I'm not very good at this till now". No. Just focus on what you're good at and make the interviewer ask questions from that only. It'll create a good impression and you'll get more confidence.

Actual Template

Hi, My name is [Your Name], and I'm a [your role] with over [Years of Experience] of experience in

[your domain], specialising in [if there's any specialisation].

I began my career at [Company A], where I worked on [work area], and then moved to [Company B] to focus more on [some area that you're good at and you've worked in Company B], where I led various projects in [projects which are your strong areas].

I have a deep interest in [subjects that you're good at] and I've been focusing on learning industry relevant skills like [some skills that are in demand and you've okaish knowledge] which I believe will definitely help me grow.

I'm looking forward to learning from the industry experts at your company and applying those insights to make an impact in my work.

That's, about me.
